

CSE 2102 Group 3 Milestone 2 – Requirements

Requirements:

- Functional
 - Detailed Biography of the pet or animal
 - Online Questionnaires for users to fill out to find eligible pet owners, Which then needs to be reviewed by the POA for users to be able to select their pet.
 - Provide a way for POA to pick who gets to adopt a pet wanted by many users.
 - There needs to be a login screen to protect the application the user needs to fill out to adopt a pet.
- Non-Functional
 - Efficient - response from the screen is fast around 1 – 3 seconds.
 - Secure system - strong passwords, password hashing, 2 factor auth.
 - Overall Layout - user friendly, can be used without having to use a tutorial.
 - Searching – a fast way to search for a pet or owner's profile.
